

Our realizations

FINISHING LINES

ARCELORMITTAL - Gandrange

- Realization a new cooling table (100m) and integration of a saw Braun with management of scraps on a unit finishing of LCB. Characteristics: width 1000mm cup table for 110mm diameter products

UGITECH - Savoie

- Automatic Line VF 1: Control table of US and CF; Cutting table (oscillation cutting), cutting stop with a precision length, length control laser strengthening / chamfering, packaging (bare package, crate, akilux), weighing, banding, storage
- Automatic Line 2B1: Control table of US and CF; strengthening / chamfering, packaging (bare package, crate, akilux), weighing, banding, storage
- Automatic Line 3B1: strengthening / chamfering, packaging

ASCOMETAL - Allevard

Automatic lines Ilots 5, Ilots 8 & Ilots 50 – Cutting stop, oscillation cutting table of precision length bunching a dynamic bucket

AUBERT ET DUVAL - Les Ancizes

Saw lineCP23

- Product: round of 70 to 200 mm diameter, maximum side 250mm square, and flat section include from 45mm x 250mm to 45mm x 20mm, length 7m
- Destacker/Beater
- Integration of ribbon Saw carbide KASTO
- Automatic Packaging in a movable bucket on the flat bottom

Automatic line control LPB12

- Product: round 15 to 60 mm diameter, length 2m to 6m
- Integration: beater BULTMANN, Foester head, bobbin magnates, Automatic Hardness testing machine, saw, marking paint, iron marking, ink marking
- Automatic packaging dynamics of buckets

Automatic line of polishing

- Product: round 15 to 80 mm diameter, length 2m to 6m
- Integration: Polishing, marking ink, degreasing
- Automatic Packaging of dynamic buckets

- Semi-automatic beater line before straightening

- Product: round 15 to 60 mm diameter, length 2m to 6m
- Disentangling packages pneumatic gripper without operator action - Optimum Security

Blasting line for big train

- Product: round 30 to 120 mm diameter, length 2m to 6m
- Integration: Automatic Hardness testing machine

Our realizations

FINISHING LINES

- Destacker / Beater strap
- Automatic Packaging of dynamic buckets

Magnetic line

- Product: round of 15 to 120 mm, length 2 to 6m
- Integration: Bench SREM Magnetic Technology

SIDENOR - Bilbao (Spain)

- Chamfering line
- Product: Round 19 to 80 mm in diameter, length 7m
- Conveyor alignment
- Chain indexed table
- Strengthening face / chamfering
- Packaging in bucket strap

ASCOMETAL - Hagondange

- Automatic Light Finishing Line
- Product: bar diameter 16 to 100 mm length 12 m
- Destacker / Automatic strengthening
- Cup (Cutting) with oscillation
- Cutting stop of length
- Straightening face / chamfering
- Packaging:
 - Hexagonal package
 - Weighing
 - Automatic strapping
 - Storage on transfers chains

ARCELORMITTAL - Gandrange

- Line straightening
- Product: bar diameter 30 to 90 mm length 12 m
- Destacker / Beater
- Integration Straightening Bronx
- Packaging in 2 fixed bucket
